Video playback instructions

- **Pre-requisites**
  - ✓ Prepare a phone that supports USB-C OTG (On-The-Go) functionality.
  - ✓ Save files/videos/photos...etc. from your phone to your MD330, or transfer it to the MD330‘s internal storage in advance.(*Please refer to Appendix 1*).

- **Operational Procedure**
  - ✓ Plug the MD330 into your phone's USB-C port.
  - ✓ Use an HDMI cable to connect the MD330's HDMI port to a TV or projector.
  - ✓ Connect the MD330 to a USB-C PD charger for fast charging (up to 100W) to keep your phone charged.
  - ✓ Open the file management app on your phone, access the MD330's storage, and find the file you want to play.
  - ✓ Open it and play the file to project.

PowerPoint Projection Operation Instructions

- **Pre-requisites**
  - ✓ Prepare a phone that supports USB-C OTG (On-The-Go) functionality.
  - ✓ Save the PPT file from your phone to the MD330, or transfer it to the MD330's internal storage in advance (*Please refer to Appendix 1*).
  - ✓ Download the PowerPoint app in advance.

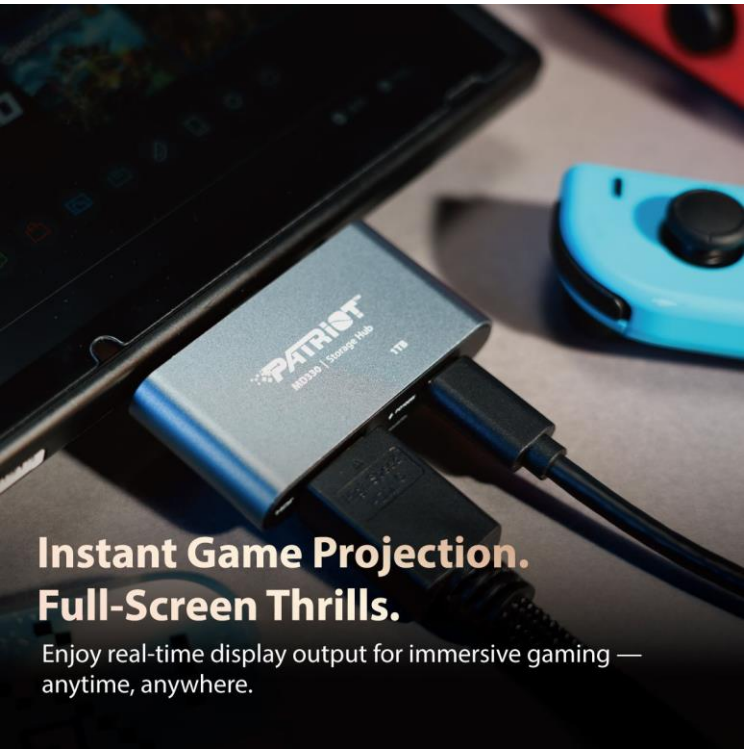

- **Operational Procedure**
  - ✓ Plug the MD330 into your phone's USB-C port.
  - ✓ Use an HDMI cable to connect the MD330's HDMI port to a TV or projector.
  - ✓ Connect the MD330's USB-C PD charger to fast charge your phone (up to 100W) and maintain battery life.
  - ✓ Open the file manager app on your phone, navigate to the MD330's storage, and find the PPT file.
  - ✓ Click the PPT file. The PowerPoint app will open and play the slides.

- **Playback Controls**
  - ✓ Next/Previous Page: Use swipe gestures within the preview app on your phone or press the Next/Previous Page buttons on the screen to navigate the projected image.
  - ✓ Zoom in/out: You can use the pinch-to-zoom or the on-screen slider to zoom in and out.

Console Output Operation Instructions

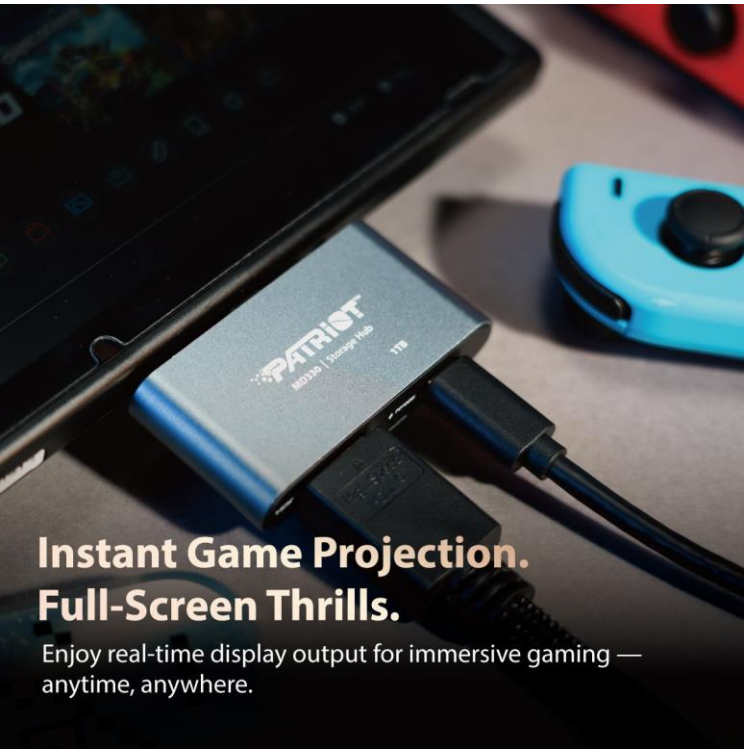

- **Pre-requisites**
  - ✓ Prepare the game console and the target TV or external monitor *(Note: For supported models other than the Switch, please refer to Appendix 2).*
  - ✓ Original Power Adapter *(Must use the original adapter to prevent video output failure or device damage).*
  - ✓ Prepare an HDMI cable.

- **Operational Procedure**
  - ① Connect Power: Plug the game console's original power adapter into the PD port (USB-C charging port) on the MD330, and plug the adapter into a power outlet.
  - ② Connect Display: Connect one end of the HDMI cable to the HDMI port on the MD330, and the other end to the TV or monitor.
  - ③ Select Input Source: Set the TV or external monitor's input source to the corresponding HDMI channel.
  - ④ Connect Console: Finally, plug the MD330's USB-C connector directly into the USB-C port at the bottom of the game console.
  - ⑤ Confirm Video Output: Once connected, the console screen will automatically go dark, and the gameplay will smoothly transfer and display on the TV or monitor. You can now pick up your controller and start playing.

Console Output Operation Instructions

※ Cautions & Notes

•Recommended Connection Sequence: To ensure the console correctly recognizes and triggers TV (Dock) Mode, always connect the power adapter and HDMI cable to the MD330 first, and plug the MD330 into the console last.

•Play While Charging: The MD330 supports up to 100W PD fast charging. Connected with the original power adapter, it fully powers the console during video output, ensuring uninterrupted long-term gaming sessions.

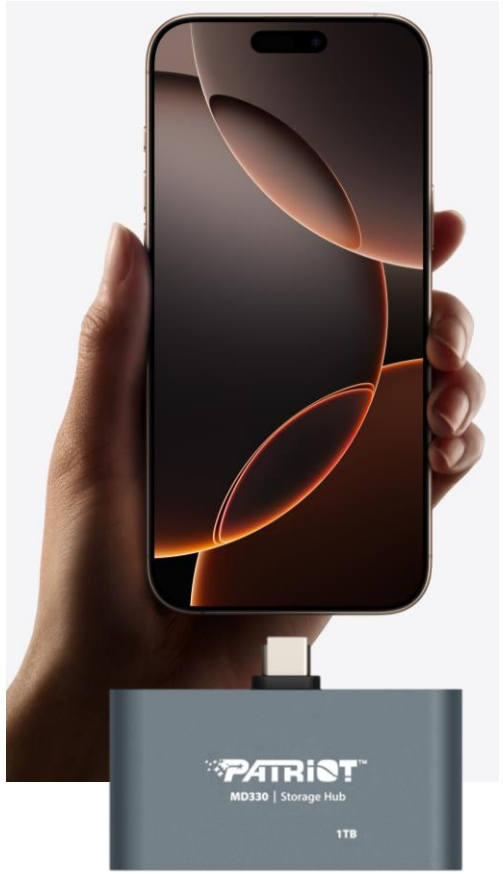

•Storage Function Note: While the MD330 features built-in storage, due to console system restrictions, game software and save data cannot be directly written to external storage drives. *(The console primarily utilizes the MD330's HDMI output and PD charging functions, whereas other supported devices like computers and smartphones can fully utilize its storage capabilities).*

Appendix 1

© 2025 Patriot Memory, Inc. CONFIDENTIAL

Step 1:

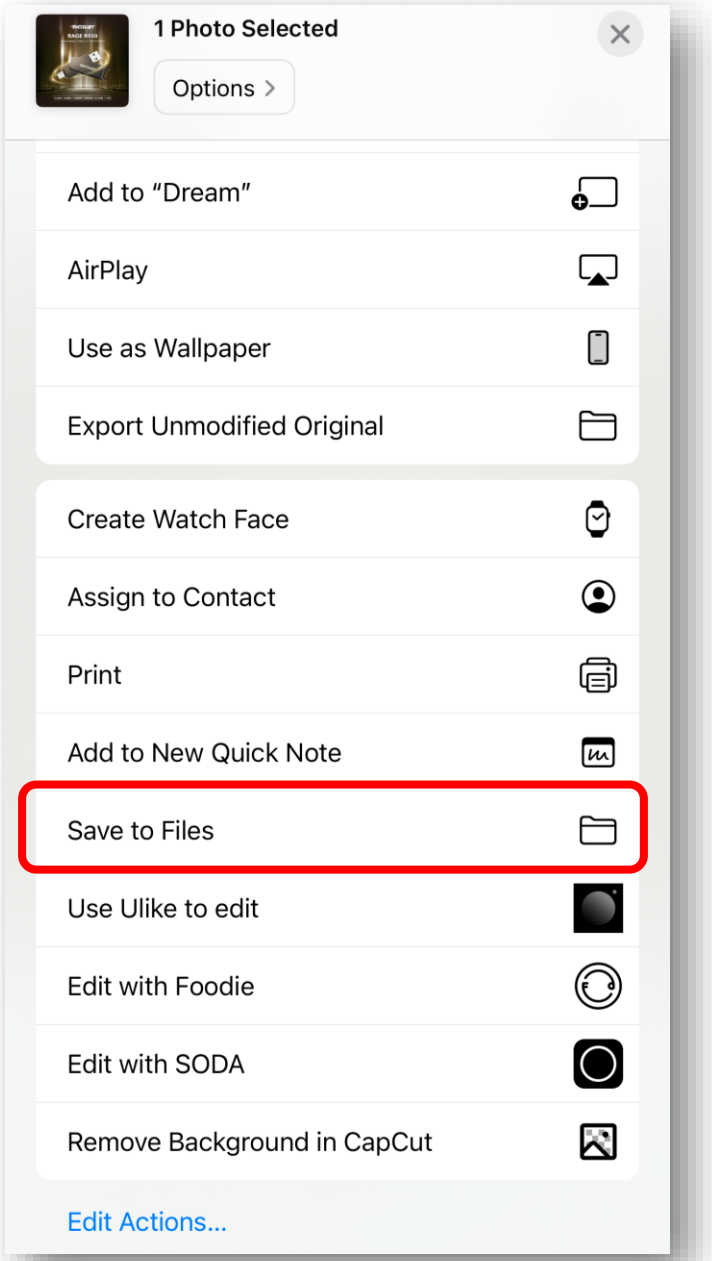

Connect your iPhone to the MD330.

Step 2:

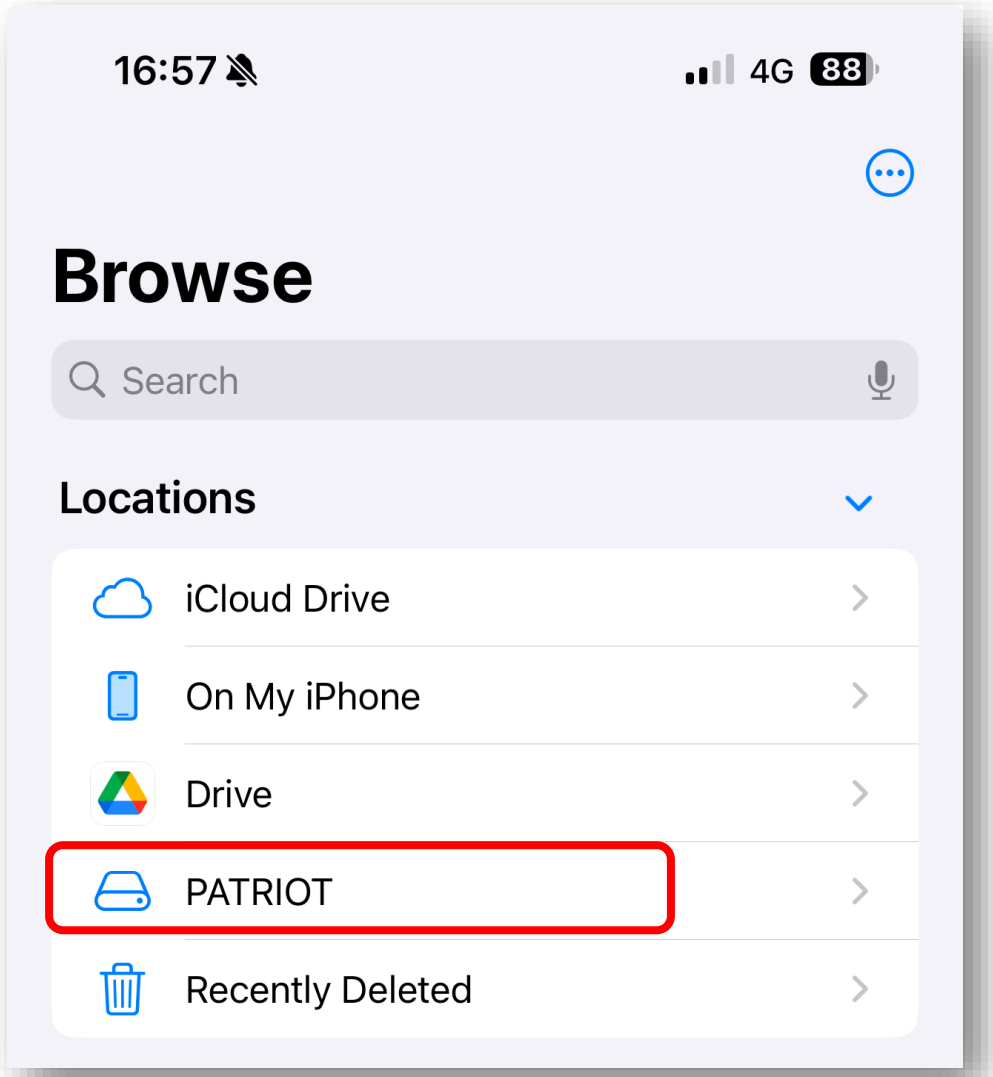

After selecting the file you want to access,

click on the red box in the lower left corner.

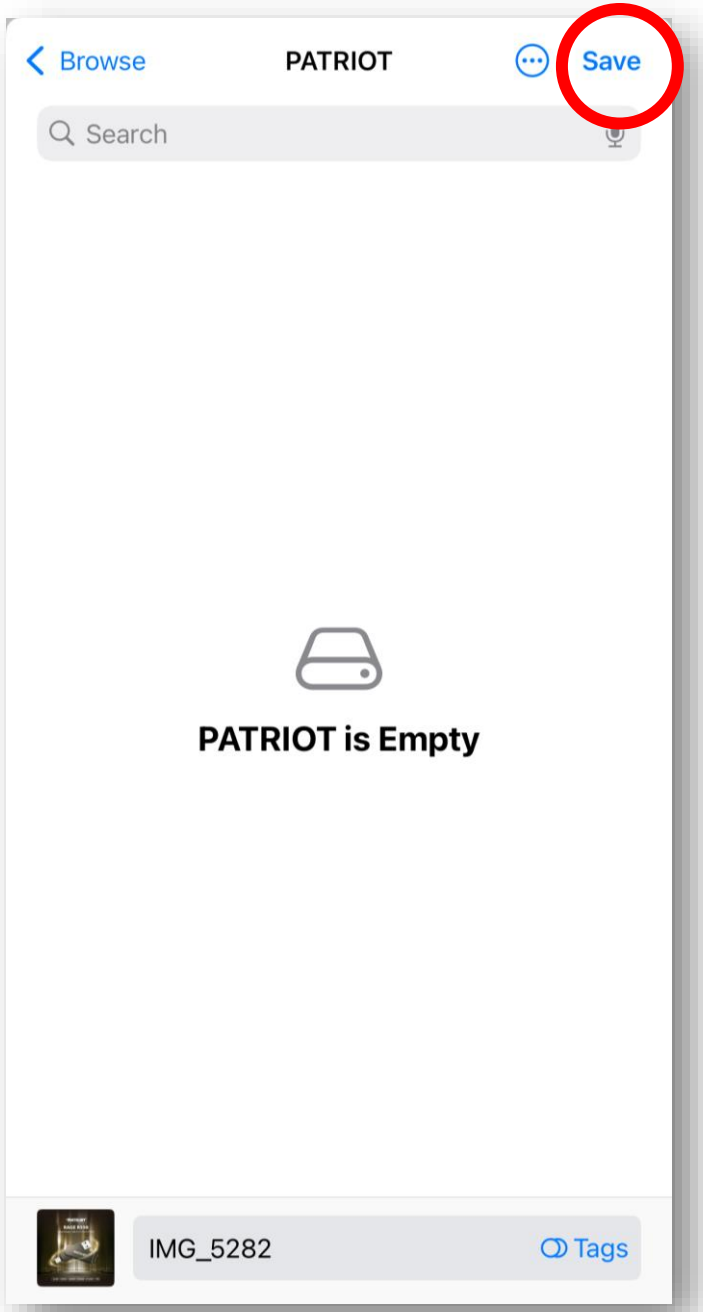

Step 3:

Select 【Save to Files】.

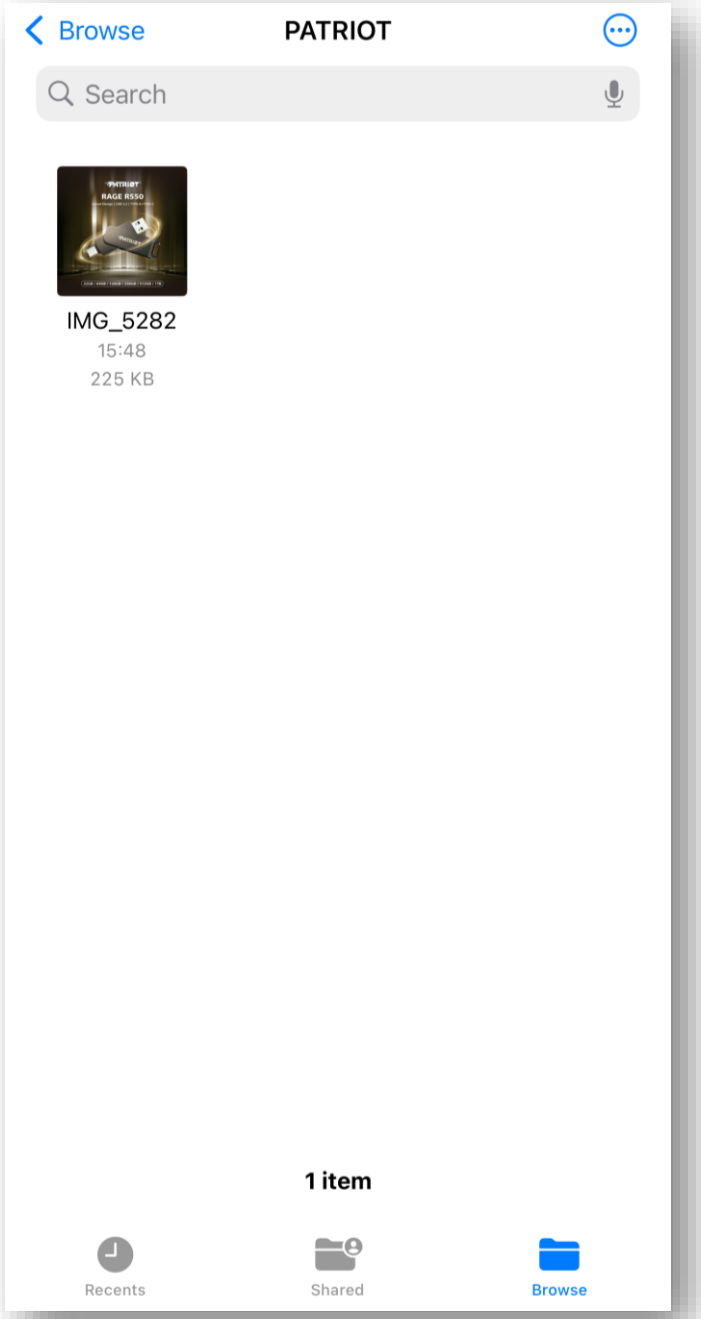

Step 4:

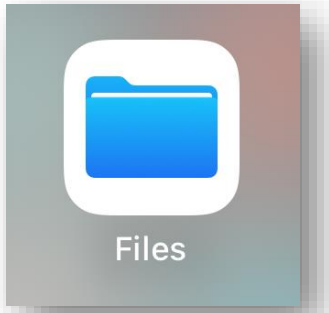

Then you can select your PATRIOT device.

Step 5:

Click "SAVE" in the upper right corner to complete the saving

Step 6:

Then you can see the stored data in the mobile APP: Files.

Appendix 2

Compatibility List

Switch

Series	microSD Card		Mobile
Model	Viper V30 A2 Gaming Series	EP Express	MD330
Remarks	Switch 1	Switch 2	· Switch 1 & 2 · External Storage & Display Output

PS5

SSD Type	Internal SSD		Portable SSD
Series	PCIe Gen 5	PCIe Gen 4	PSSD
Model	PV593 / PV563	VP4300 / VP4300 Lite / P400 V4	Transporter Lite / PDP31 / PVP30
Read Speed	Up to 6,000 MB/s		Up to 1,000 MB/s

ROG XBOX ALLY

Series	PCIe Gen 5	PCIe Gen 4	PCIe Gen 3	microSD Card	Mobile
Model	PV593 / PV563	P400 V4 / P410 / P400 Lite / VP4300 Lite	P320 / P310 / P300	Viper V30 A2 Gaming Series	MD330
Remarks	N/A			External Storage	External Storage & Display Output
