AI Matrix

Patriot AI Matrix SSD Series

The Patriot AI Matrix SSD series delivers responsive, sustained NVMe storage engineered to eliminate bottlenecks and empower local AI workflows across every deployment tier. Spanning flagship PCIe Gen5 x4 performance with the MS560, mainstream Gen4 x4 throughput with the MS450, to responsive Gen3 x4 efficiency with the MS350, the lineup drastically reduces checkpoint load times and prevents system stalls across models up to 70B parameters.

Structured across PRO, Mid, and Entry tiers, the series establishes a workload-based foundation tailored to AI application demands. PRO drives accelerate high-performance enterprise RAG (Retrieval-Augmented Generation) and multi-step tool orchestration, Mid tiers support multimodal processing and code generation, and Entry models ensure reliable lightweight execution.

Features

- Slashes multi-gigabyte AI model checkpoint loading times to accelerate local deployment
- Tiered PCIe architecture matched for workloads from edge to up to 70B inference
- Sustains high-bandwidth data flow without thermal throttling during extended sessions
- Standard lightweight M.2 2280 form factor ensures universal platform compatibility
- Enables complete data sovereignty and privacy by eliminating cloud dependency
- Engineered with verified stability backed by a 2-year limited warranty
